

To whom this concerns, I am writing to let you at the fcc know that my family supports financially and needs k-love 91.1 to stay on the air in the Denver area. K-love is a greatly needed station that has family friendly listening for my wife and me, and our five children. There is absolutely no need to take 91.1 off the air and replace it with a lpfm signal. We choose to continue to pay for this listening choice , commercial free! It's worth it. Please consider my comments and leave our station right where it is! thank you .
